

FIG. 1 is a block diagram of a system 100. The system 100 includes a central processing unit 104, a data storage unit 106, and a plurality of telephones 108. The central processing unit 104 is connected to the data storage unit 106 and the telephones 108. The central processing unit 104 is also connected to a network 102. The network 102 is connected to the telephones 108. The telephones 108 are connected to the central processing unit 104 via a bus 106.
